

Autism & ABA: An Introduction to Discrete Trial Teaching (DTT)

July 20 and 21, 2016
8:30 a.m. to 3:00 p.m. (CDT)
Workshop #108-16

GRREC Office & Training Facility • 230 Technology Way • Bowling Green

The Green River Regional Educational Cooperative Special Education Division is pleased to present *Autism & ABA: An introduction to Discrete Trial Teaching* on Wednesday and Thursday, July 20-21, 2016.

In this session, characteristics of autism and the more prominent interventions or evidence-based practices (EBPs) in the area of autism will be briefly reviewed. The session will primarily focus upon Applied Behavior Analysis (ABA) and Discrete trial teaching (DTT) interventions that schools are more frequently being asked to provide for students with autism. Participants will have an introduction to general ABA procedures as they pertain to effective interventions. A description of both verbal behavior and mass trial strategies will be provided with conditions on when to use. Day 1 will focus on specific DTT strategies and teaching methods. Day 2 will focus upon what to teach and specific curriculum tools. **Note: Must attend Day 1 to attend Day 2.**

Participants will be provided with an introduction to several of the EBPs that are essential to the success of a Discrete Trial program. The learning objectives include:

- Awareness of the twenty-seven EBPs for ASD
- Identifying the basic components of DTT format
- Identifying the seven key principles of ABA to teach using DTT procedures
- Awareness of curriculum guides that may assist in using discrete trial methods
- Identifying the behavior classification of language based upon verbal behavior
- The importance of data collection and analysis to improve instruction

Debra Myers, Low Incidence Consultant/BCBA will lead participants through the two-day workshop.

Audience: Special Education Teachers, Directors of Special Education, Speech Therapists, and Instructional Assistants
